

KEY THINGS TO KNOW ABOUT YOUR C50 PRO

- C50 PRO box has a number of spares that you might need later. Keep them in a safe place.
- THE USB-C to USB-C CLICKDOCK CABLE is a custom C50 cable and should NOT be used for charging the C50 or any other electronic device.
- The speaker must be positioned in the helmet to line up with your ear canal for optimum audio experience
- C50 auto-adjusts for your phone's audio level when the app connects for the first time (one-time calibration). Music might distort at max volume if the app is not installed.
- MUSIC SHARING requires a one-time app set up.
- RIDEGRID 2.0 features such as MUSIC SHARING and GROUP CONTROLS work only with PRIVATE GROUPS.
