⚠️ THIS CABLE SHOULD NOT BE USED FOR CHARGING ANY ELECTRONIC DEVICE

KEY THINGS TO KNOW ABOUT YOUR C50

1. C50 box has a number of spares that you might need later. Keep them in a safe place.
2. THE USB-C to USB-C CLICKDOCK CABLE is a custom C50 cable and should NOT be used for charging the C50 or any other electronic device.
3. The speaker must be positioned in the helmet to line up with your ear canal for optimum audio experience
4. C50 auto-adjusts for your phone's audio level when the app connects for the first time (one-time calibration). Music might distort at max volume if the app is not installed.
5. MUSIC SHARING requires a one-time app set up.
6. RIDEGRID 2.0 features such as MUSIC SHARING and GROUP CONTROLS work only with PRIVATE GROUPS.

INSTALL THE APP TO ACCESS ALL FEATURES
